Published on August 25, 2020

When the DEIS was released by the U.S. Forest Service in August of 2020, our company was called Midas Gold. Since then, we have changed our name to better reflect our values and our project. Today, we are proud to be Perpetua Resources.

CURRENT CONDITIONS

Thirteen IRAs within the analysis area are managed for roadless character. Under the Idaho Roadless Rule regulations, Payette National Forest and Boise National Forest plans, and 36 CFR 228A regulations, locatable mineral activities are allowed in the portions of these IRAs where proposed for the Stibnite Gold Project (SGP), with mitigation of effects.

MINE IMPACTS/PROTECTIVE MEASURES

- **Alternative 1:** 752 acres of Stibnite Gold Project (SGP) structures and facilities within six IRAs (Meadow Creek, Horse Heaven, Black Lake, Burntlog, Caton Lake and Reeves Creek).
- **Alternative 2:** 740 acres of SGP structures and facilities within six IRAs (Meadow Creek, Horse Heaven, Black Lake, Burntlog, Caton Lake and Reeves Creek).
- **Alternative 3:** 650 acres of SGP structures and facilities within six IRAs (Meadow Creek, Horse Heaven, Black Lake, Burntlog, Caton Lake and Reeves Creek).
- **Alternative 4:** 531 acres of SGP structures and facilities within four IRAs (Meadow Creek, Horse Heaven, Caton Lake and Reeves Creek).
- **Alternative 5:** No new facilities within IRAs.
